Email: adityamaurya510@gmail.com
Mobile: +91-9721392563

SKILLS

• Languages:	Java, C++, Python, JavaScript, Kotlin, HTML/CSS
• Frameworks:	Android SDK, Express.js, React.js, Node.js, Flask, Spring Boot
• Tools:	Git, GitHub, Android Studio, VS Code, IntelliJ IDEA, Postman, Docker
• Databases:	MongoDB, SQL
• CS Fundamentals:	Data Structures & Algorithms, OOP, Operating Systems, Computer Networks
• Soft Skills:	Analytical Thinking, Team Collaboration, Adaptability, Communication, Time Management

PROJECTS

Arv-Foundation | [GitHub](#)

Jan'25-Present

MERN, MongoDB, Cloudinary, JWT

- Engineered a full-stack NGO management platform enabling initiatives, partnerships, volunteering, and secure donation workflows with a centralized admin dashboard.
- Architected a scalable backend using Node.js, Express, and MongoDB; implemented JWT-based authentication, integrated Cloudinary and email services, and optimized REST APIs for high performance.
- Improved API response time by 40%, reduced manual administrative effort by 60%, and enhanced scalability to support increasing user traffic.

Library Management System | [GitHub](#)

Jun'25-Sep'2025

Java, Java Swing, MongoDB, JWT

- Developed a desktop-based Library Management System to automate book inventory, user management, and issue/return workflows.
- Implemented role-based access control, advanced search functionality, and optimized MongoDB queries to improve data retrieval efficiency.
- Reduced manual processing time by 55% and improved overall system performance by 40% through query optimization and structured backend design.

AI-powered creative writing assistant | [GitHub](#)

Feb'25-Mar'2025

HTML, CSS(Tailwind), JavaScript, Python, Google AI API

- Built an AI-powered creative writing assistant integrating Google AI APIs to generate story ideas, character arcs, and plot suggestions.
- Designed and developed a responsive manga-style chat interface using Tailwind CSS with writing prompts, style selection, and real-time interaction features.
- Reduced creative blocks by 50% and enhanced user engagement through intelligent real-time content suggestion.

SUMMER TRAINING

CipherSchools

Jun'25-Jul'2025

- Strengthened core DSA concepts using Java by solving real-world algorithmic problems focusing on recursion, time complexity, and OOP principles.
- Implemented optimized solutions for searching, sorting, linked lists, stacks, queues, trees, and graphs, achieving 40–60% performance improvements.

CERTIFICATES

- | | |
|---|----------|
| • Privacy and Security in Online Social Media NPTEL | Oct'2025 |
| • Data Structures and Algorithms CipherSchools | Jul'2025 |
| • Hardware and Operating Systems Coursera | Sep'2024 |

ACHIEVEMENTS

- Solved 100+ DSA problems across multiple coding platforms, strengthening logical thinking and problem-solving ability.
- Recognized as Top Performer in a Web Hackathon for delivering a scalable and user-focused solution under time constraints.

EDUCATION

Lovely Professional University

Jalandhar, Punjab

Bachelor of Technology in Computer Science and Engineering CGPA: 6.40

pursuing

Vishnu Bhagwan Public School

Prayagraj, UP

Intermediate; Percentage: 73

Apr'20 – Mar'21

Army Public School

Prayagraj, UP

Matriculation; Percentage: 76.5

Apr'18 – Mar'19
